CTE College Credit is free and is awarded to students who:

1. Complete the CTE course sequence with a grade-point average of 3.0 or higher;
2. Pass the state end-of-program technical assessment for the program;
3. Pass the Workplace Readiness Assessment for employability skills: and
4. Apply to the school granting credit and request the credit be posted to a transcript. School counselors are available to assist students with this process.

Students who qualify for the college credit do not need to attend the credit granting school to receive the credit. Please see the appendix or visit <http://www.doe.nv.gov/CTE/> for further information.

NURSING ASSISTANT		
HEALTH SCIENCE I	This one-year course introduces students to health occupations with a clinical perspective. This course includes medical terminology, health care careers and systems, safety, legal responsibilities, wellness, and disease prevention. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to society. The appropriate use of technology is an integral part of this course. This course fulfills one of the elective credits required for high school graduation. See the Appendix for the Instructional Fees List.	Grades: 9 Prerequisite: None Credits: 1
HEALTH SCIENCE II	This one-year course provides students, who have successfully completed Health Science I with a clinical perspective of anatomy and physiology. Emphasis is placed on the organization, structure and function of the human body, growth and development, wellness, and pathophysiology. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to society. The appropriate use of technology is an integral part of this course. This course fulfills one of the elective credits required for high school graduation. See the Appendix for the Instructional Fees List.	Grades: 10 Prerequisite: Successful completion of Health Science I Credits: 1
PRINCIPLES OF ANATOMY AND PHYSIOLOGY HONORS	This one-year course is a survey of the fundamentals of anatomy and physiology. This course is designated as honors level by the accelerated pacing and depth of content. Topics focus on the interrelationships of human body systems. Demonstrations and lab experiences that employ proper safety techniques are essential to this course. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to society. The appropriate use of technology is an integral part of this course. This course fulfills one of the elective credits required for high school graduation. See the Appendix for the Instructional Fee List.	Grade: 11 Prerequisite: Health Science I and II Credits: 1
HUMAN DISEASES	This one-year course provides students, who have successfully completed Health Science I with an anatomical, physiological, and clinical perspective about human diseases, injuries, and conditions of the body. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to society. The appropriate use of technology is an integral part of this course. This course fulfills one of the elective credits required for high school graduation. See the Appendix for the Instructional Fee List.	Grades: 11 Prerequisite: Health Science I and II Credits: 1
NURSING ASSISTANT	This one-year course provides students who have successfully completed Health Science II with the skills required for entry into the healthcare field. Students completing this program, including clinical practicum, are eligible to apply independently for the Nevada State Board of Nursing Certifying Exam for Nursing Assistants. The appropriate use of technology is an integral part of this course. This course fulfills one of the elective credits required for high school graduation. See the Appendix for the Instructional Fees List.	Grades: 12 Prerequisite: Health Science I and II, Anatomy and Physiology, and Human Diseases Credits: 1

<p>NURSING ASSISTANT LAB</p>	<p>This one-year course is designed for students who are concurrently enrolled in Nursing Assistant to expand the students' opportunities for applied learning.
